**Geneviève Dumas, Ph.D., P.Eng**

*Department of Mechanical and Materials Engineering*
*Faculty of Engineering and Applied Science*
*Queen’s University*
*Canada*

Geneviève Dumas received her PhD in Mechanical Engineering from the Ecole Polytechnique (Montréal, Canada) in 1981. She worked there as a Research Associate until she joined Queen’s University in 1985. She is now a full professor in the Department of Mechanical and Materials Engineering, with cross-appointments in the School of Kinesiology and the Department of Gender Studies. She is also a member of the Human Mobility Research Centre (HMRC) and the Ergonomics Research Group.

She has been working for many years on spinal Biomechanics and occupational Biomechanics. In recent years, her main research interest has been focused on Biomechanics of pregnancy.
